Perfect Sound - Battery Operated!

ITEC Compact-Box-theentiresoundsysteminone handy, mobile box, including the power supply by a high-capacity rechargeable battery. Amplifier, mixer, speaker system and the battery are fully integrated.

All Inclusive: The ITEC Compact-Box comes with everything you need for your event. The package includes a professional wireless microphone (the receiver is integrated in the box) and the new CD-MP3-USB player. This player allows you to play your songs from CD or from MP3 or WAV files on a USB memory stick. Furthermore, the useful carrying bag is included so that you can easily carry along your ITEC Compact-Box wherever you go.

Applications

- Events at School
- Lectures, Seminars
- Aerobic & Fitness
- Fairs, Exhibitions, Product Presentations
- Trainings
- Staff Meetings
- Business Parties
- and much more

Place, activate, operate!

Up to 8 hours of full power in battery mode

Forget about the strenuous setup of a sound system and all the hassle in running all the cabling. Just place the ITEC Compact-Box, activate, operate! Operation is as simple as could be. Like any ITEC product, the Compact-Box impresses the audience with superb intelligibility and authentic music reproduction. And even more: you can operate it for up to 8 hours without plugging it to the power grid. The integrated high-capacity rechargeable battery makes it real!

Shipped with the product

Wireless Microphone

A professional wireless microphone is included in the package. That translates to maximum freedom of movement for the speaker.

Auto Mute

Automatic music volume reduction for the time you are speaking - it has never been easier. Volume reduction levels can be set as you wish of course.

CD-MP3-USB Player

Flashy and in the package: the combined CD-MP3-USB player. You can play back the usual audio CDs as well as audio files from your USB memory stick.

Carrying Bag

Also shipped with the product: the compact carrying bag for your ITEC Compact-Box made from water-resistant materials. The spacious side pocket can take lots of accessoires.

Optional accessories

Lavalier Microphone

You can be even more versatile with a second wireless microphone - which can be a second wireless hand-held, but also a lavalier or headset microphone (see above and to the right)

Headset

The headset is the professional solution for lecturing, cabaret, theatre and sports. We offer multiple models from standart (see above) to very subtle and unobtrusive models in skin color.

EM-300 Cable-Bound Microphone

The ITEC Compact-Box comes with an input socket for a cable-bound microphone as well. We recommend the ITEC EM-300 - a state-of-the-art electret-condenser microphone. It is equally suitable for speech, singing and music.

Tripod

The box tripod is light as a feather - only 1.25 kg - while offering a height of up to 188 cm. When folded, it measures only 1 meter and can furthermore be clipped to the carrying bag (see above).
